<b>Introduction</b>	<b>1</b>
<b>Chapter 1. The first internal boundary value problem</b>	<b>3</b>
<b>1.1. An example of nonuniqueness</b>	<b>5</b>
1.2. The first internal boundary value problem in a disk . . . . .	18
1.3. The first internal boundary value problem in a half-strip . . . . .	26
1.4. The first internal boundary value problem in the half-plane . . . . .	36
1.5. The first internal boundary value problem in rectangles . . . . .	40
1.6. The first internal boundary value problem for star-like domains . .	46
<b>Chapter 2. The second internal boundary value problem</b>	<b>51</b>
2.1. The second internal boundary value problem in a convex domain	52
2.2. The second internal boundary value problem in the half-plane . .	66
2.3. The second internal boundary value problem in a rectangle . . . . .	80

<b>Chapter 3. The third internal boundary value problem</b>	<b>123</b>
3.1. IBVP 3 in a convex domain . . . . .	124
3.2. IBVP 3 in a rectangle . . . . .	125
<b>Chapter 4. Internal boundary value problems and the Cauchy problem for the abstract biharmonic equation</b>	<b>135</b>
4.1. Internal boundary value problems . . . . .	135
4.2. The Cauchy problem . . . . .	142
<b>Chapter 5. Appendices</b>	<b>147</b>
5.1. Appendix A . . . . .	147
5.2. Appendix B . . . . .	150
5.3. Appendix C . . . . .	153
<b>Bibliography</b>	<b>157</b>
