# Contents

|  |     |
|--|-----|
| <b>1. Preliminary Considerations</b> .....                                       | 1   |
| <b>2. Elements of Differential Calculus for Tensor Fields</b> .....              | 13  |
| 2.1 Tensors .....  | 13  |
| 2.2 Tensor Fields .....  | 16  |
| 2.3 Transformation Properties of Tensor Fields .....                             | 18  |
| 2.4 Directional Derivative of Tensor Fields .....                                | 23  |
| 2.5 Differential $k$ -Forms .....  | 27  |
| 2.6 Flows and Lie Transport .....  | 32  |
| 2.7 Lie Derivatives .....  | 34  |
| <b>3. The Theory of Hamiltonian and Bi-Hamiltonian Systems</b> .                 | 41  |
| 3.1 Lie Algebras .....   | 42  |
| 3.2 Hamiltonian and Bi-Hamiltonian Vector Fields .....                           | 49  |
| 3.3 Symmetries and Conserved Quantities of Dynamical Systems                     | 52  |
| 3.4 Tensor Invariants of Dynamical Systems .....                                 | 56  |
| 3.5 Algebraic Properties of Tensor Invariants .....                              | 63  |
| 3.6 The Miura Transformation .....   | 83  |
| <b>4. Lax Representations of Multi-Hamiltonian Systems</b> .....                 | 87  |
| 4.1 Lax Operators and Their Spectral Deformations .....                          | 88  |
| 4.2 Lax Representations of Isospectral<br>and Nonisospectral Hierarchies .....   | 91  |
| 4.3 The Lax Operator Algebra .....   | 101 |
| <b>5. Soliton Particles</b> .....  | 107 |
| 5.1 General Aspects .....  | 107 |
| 5.2 Algebraic Structure of Linear Systems .....                                  | 109 |
| 5.3 Algebraic Structure of Multi-Soliton Representation .....                    | 117 |
| 5.4 Multi-Soliton Perturbation Theory .....                                      | 130 |
| <b>6. Multi-Hamiltonian Finite Dimensional Systems</b> .....                     | 135 |
| 6.1 Stationary Flows of Infinite Systems.<br>Ostrogradsky Parametrizations ..... | 137 |

|           |   |            |
|-----------|---|------------|
| 6.2       | Stationary Flows of Infinite Systems.<br>Newton Parametrization . . . . .                     | 151        |
| 6.3       | Constrained Flows of Lax Equations . . . . .  | 166        |
| 6.4       | Restricted Flows of Infinite Systems . . . . .  | 177        |
| 6.5       | Separability of Bi-Hamiltonian Chains<br>with Degenerate Poisson Structures . . . . .         | 184        |
| 6.6       | Nonstandard Multi-Hamiltonian Structures<br>and Their Finite Dimensional Reductions . . . . . | 220        |
| 6.7       | Bi-Hamiltonian Chains on Poisson–Nijenhuis Manifolds . . . . .                                | 241        |
| <b>7.</b> | <b>Multi-Hamiltonian Lax Dynamics in (1+1)-Dimensions . . .</b>                               | <b>249</b> |
| 7.1       | Hamiltonian Dynamics on Lie Algebras . . . . .  | 250        |
| 7.2       | Basic Facts About $R$ -Structures . . . . .   | 257        |
| 7.3       | Multi-Hamiltonian Dynamics<br>of Pseudo-Differential Lax Operators . . . . .                  | 264        |
| 7.4       | Multi-Hamiltonian Dynamics of Shift Lax Operators . . . . .                                   | 293        |
