

# Lecture Notes in Mathematics

A collection of informal reports and seminars  
Edited by A. Dold, Heidelberg and B. Eckmann, Zürich

274

---

I. Bucur, J. Giraud, N. Goodman and  
J. Myhill, L. Illusie, J. Lambek,  
D. S. Scott, M. Tierney

## Toposes, Algebraic Geometry and Logic

Dalhousie University, Halifax, January 16–19, 1971

Edited by F. W. Lawvere, Matematisk Institut, Aarhus/Danmark

---

Springer-Verlag  
Berlin · Heidelberg · New York 1972

## TABLE OF CONTENTS

|                                                                                  |     |
|----------------------------------------------------------------------------------|-----|
| Introduction by F. William Lawvere . . . . .                                     | 1   |
| <u>Myles Tierney:</u>                                                            |     |
| Sheaf Theory and the Continuum Hypothesis. . . . .                               | 13  |
| <u>Jean Giraud:</u>                                                              |     |
| Classifying Topos. . . . .                                                       | 43  |
| <u>Joachim Lambek:</u>                                                           |     |
| Deductive Systems and Categories . . . . .                                       | 57  |
| <u>Nicolas D. Goodman and John Myhill:</u>                                       |     |
| The Formalization of Bishop's Constructive Mathematics . . . . .                 | 83  |
| <u>Dana Scott:</u>                                                               |     |
| Continuous Lattices. . . . .                                                     | 97  |
| <u>I. Bucur:</u>                                                                 |     |
| Some Applications of the Formalism of Duality in Algebraic<br>Geometry . . . . . | 137 |
| <u>Luc Illusie:</u>                                                              |     |
| Cotangent Complex and Deformations of Torsors and Group Schemes. . . . .         | 159 |
