New Computational Paradigms
Changing Conceptions of What is Computable
Cooper, S.B.; Löwe, B.; Sorbi, A. (Eds.)
2008, XIV, 560 p., Hardcover
ISBN: 978-0-387-36033-1

Contents

Preface ix

List of Contributors xi

Alan Turing, Logical and Physical
Andrew Hodges 3

Part I The Turing Model of Computation and its Applications to Logic, Mathematics, Philosophy, and Computer Science

Computability and Numberings
Serikzhan Badaev, Sergey Goncharov 19

Computation as Conversation
Johan van Benthem 35

Computation Paradigms in Light of Hilbert's Tenth Problem
Yuri Matiyasevich 59

Elementary Algorithms and Their Implementations
Yiannis N. Moschovakis, Vasilis Paschalis 87

Applications of the Kleene–Kreisel Density Theorem to Theoretical Computer Science
Dag Normann 119

Church Without Dogma: Axioms for Computability
Wilfried Sieg 139

Computability on Topological Spaces via Domain Representations
Viggo Stoltenberg-Hansen, John V. Tucker 153

On the Power of Broadcasting in Mobile Computing
Jiří Wiedermann, Dana Pardubská 195

Part II Logic, Algorithms and Complexity

The Computational Power of Bounded Arithmetic from the Predicative Viewpoint
Samuel R. Buss 213

Effective Uniform Bounds from Proofs in Abstract Functional Analysis
Ulrich Kohlenbach 223

Effective Fractal Dimension in Algorithmic Information Theory
Elvira Mayordomo 259

Metamathematical Properties of Intuitionistic Set Theories with Choice Principles
Michael Rathjen 287

New Developments in Proofs and Computations
Helmut Schwichtenberg 313

Part III Models of Computation from Nature

From Cells to (Silicon) Computers, and Back
Gheorghe Păun 343

Computer Science, Informatics, and Natural Computing—Personal Reflections
Grzegorz Rozenberg 373

Part IV Computable Analysis and Real Computation

A Survey on Continuous Time Computations
Olivier Bournez, Manuel L. Campagnolo 383

A Tutorial on Computable Analysis
Vasco Brattka, Peter Hertling, Klaus Weihrauch 425

A Continuous Derivative for Real-Valued Functions
Abbas Edalat 493

Infinite Time Computable Model Theory
Joel David Hamkins, Russell Miller, Daniel Seabold, Steve Warner 521

Index 559
