

Contents

| | |
|---|-----|
| Preface | ix |
| Part A: Explicit Quotients of $G_{\mathbb{Q}}$ and $G_{\overline{\mathbb{F}}(t)}$ | |
| Explicit Galois realization of C_{16} -extensions of A_n and S_n TERESA CRESPO | 3 |
| Topics in Galois theory MICHAEL FRIED | 15 |
| Parametric solutions of embedding problems B. H. MATZAT | 33 |
| Some projective linear groups over finite fields as Galois groups over \mathbb{Q} AMADEU REVERTER AND NÚRIA VILA | 51 |
| K -admissibility of metacyclic 2-groups STEVEN LIEDAHL AND JACK SONN | 65 |
| Embedding problems and the $C_{16} \rightarrow C_8$ obstruction JOHN R. SWALLOW | 75 |
| Cyclic covers of \mathbb{P}^1 and Galois action on their division points HELMUT VÖLKLEIN | 91 |
| Part B: Moduli Spaces and the Structure of $G_{\mathbb{Q}}$ | |
| Introduction to modular towers: Generalizing dihedral group-modular curve connections MICHAEL FRIED | 111 |
| On Galois actions on profinite completions of braid groups YASUTAKA IHARA AND MAKOTO MATSUMOTO | 173 |
| On the Galois image in the derivation algebra of π_1 of the projective line minus three points MAKOTO MATSUMOTO | 201 |
| Part C: The Structure of $G_{\mathbb{R}(t)}$, $G_{\overline{\mathbb{F}}_q(t)}$, and $G_{\mathbb{Q}_p(t)}$ | |
| Covers of \mathbb{P}^1 over the p -adics PIERRE DÈBES | 217 |

| | |
|--|-----|
| Existence de points p -adiques pour tout p sur un espace de Hurwitz BRUNO DESCHAMPS | 239 |
| Stable models ERIC DEW | 249 |
| Tout groupe fini est un groupe de Galois sur $\mathbb{Q}_p(T)$, d'après Harbater QING LIU | 261 |
| Specializations of coverings and their Galois groups WOLFGANG K. SEILER | 267 |
| Rational points and canonical heights on K3-surfaces in $\mathbb{P}^1 \times \mathbb{P}^1 \times \mathbb{P}^1$ LAN WANG | 273 |
| Part D: Group Theory and Geometric Monodromy Groups | |
| Mathieu group coverings and linear group coverings SHREERAM S. ABHYANKAR | 293 |
| Fundamental groups for arbitrary categories PAUL FEIT | 321 |
| Monodromy groups of branched coverings: The generic case ROBERT M. GURALNICK AND MICHAEL G. NEUBAUER | 325 |
| Fundamental groups and embedding problems in characteristic p DAVID HARBATER | 353 |
| On free profinite groups of uncountable rank MOSHE JARDEN | 371 |
| Primitive monodromy groups of polynomials PETER MÜLLER | 385 |
