This work is protected under copyright by Elsevier Science, and the following terms and conditions apply to its use:

Photocopying:
Single photocopies of single chapters may be made for personal use as allowed by national copyright laws. Permission of the Publisher and payment of a fee is required for all other photocopying, including multiple or systematic copying, copying for advertising or promotional purposes, resale, and all forms of document delivery. Special rates are available for educational institutions that wish to make photocopies for non-profit educational classroom use.

Permissions may be sought directly from Elsevier's Science & Technology Rights Department in Oxford, UK; phone: (+44) 1865 843830, fax: (+44) 1865 853333, e-mail: permissions@elsevier.com. You may also complete your request on-line via the Elsevier Science homepage (http://www.elsevier.com), by selecting 'Customer Support' and then 'Obtaining Permissions'.

In the USA, users may clear permissions and make payments through the Copyright Clearance Center, Inc., 222 Rosewood Drive, Danvers, MA 01923, USA; phone: (+1) 978 7508400, fax: (+1) 978 7504744, and in the UK through the Copyright Licensing Agency Rapid Clearance Service (CLARCS), 90 Tottenham Court Road, London W1P 0LP, UK; phone: (+44) 207 631 5555; fax: (+44) 207 631 5500. Other countries may have a local reprographic rights agency for payments.

Derivative Works:
Tables of contents may be reproduced for internal circulation, but permission of Elsevier Science is required for external resale or distribution of such material.

Permission of the Publisher is required for all other derivative works, including compilations and translations.

Electronic Storage or Usage:
Permission of the Publisher is required to store or use electronically any material contained in this work, including any chapter or part of a chapter.

Except as outlined above, no part of this work may be reproduced, stored in a retrieval system or transmitted in any form or by any means, electronic, mechanical, photocopying, recording or otherwise, without prior written permission of the Publisher.
Address permissions requests to: Elsevier's Science & Technology Rights Department, at the phone, mail, fax and e-mail addresses noted above.

Notice:
No responsibility is assumed by the Publisher for any injury and/or damage to persons or property as a matter of products liability, negligence or otherwise, or from any use or operation of any methods, products, instructions or ideas contained in the material herein. Because of rapid advances in the medical sciences, in particular, independent verification of diagnoses and drug dosages should be made.

Library of Congress Cataloging-in-Publication Data
A catalog record from the Library of Congress has been applied for.

British Library Cataloguing in Publication Data
Handbook of mathematical fluid dynamics
Vol. 2
1. Fluid dynamics – Mathematics
I. Friedlander, Susan, 1946 – II. Serre, D. (Denis)
III. Mathematical fluid dynamics
532'.05'0151

ISBN: 0 444 51287 x

⊗ The paper used in this publication meets the requirements of ANSI/NISO Z39.48-1992 (Permanence of Paper).

Printed in The Netherlands.

Contents

Contents of the Handbook	v
Preface	vii
List of Contributors	ix
1. Statistical Hydrodynamics *R. Robert*	1
2. Topics on Hydrodynamics and Volume Preserving Maps *Y. Brenier*	55
3. Weak Solutions of Incompressible Euler Equations *A. Shnirelman*	87
4. Near Identity Transformations for the Navier–Stokes Equations *P. Constantin*	117
5. Planar Navier–Stokes Equations: Vorticity Approach *M. Ben-Artzi*	143
6. Attractors of Navier–Stokes Equations *A.V. Babin*	169
7. Stability and Instability in Viscous Fluids *M. Renardy and Y. Renardy*	223
8. Localized Instabilities in Fluids *S. Friedlander and A. Lipton-Lifschitz*	289
9. Dynamo Theory *A.D. Gilbert*	355
10. Water-Waves as a Spatial Dynamical System *F. Dias and G. Iooss*	443
11. Solving the Einstein Equations by Lipschitz Continuous Metrics: Shock Waves in General Relativity *J. Groah, B. Temple and J. Smoller*	501
Author Index	597
Subject Index	609
