

CENTRO INTERNAZIONALE MATEMATICO ESTIVO
(C. I. M. E.)

1° - Ciclo - Bressanone dal 10 al 18 giugno
1966

"CALCULUS OF VARIATIONS, CLASSICAL AND MODERN"

Coordinatore : Prof. R. CONTI

A. BLAQUIERE	: Quelques aspects geometriques des processus optimaux.	pag. 1
Ch. CASTAING	: Quelques problèmes de mesurabilité liés a la théorie des commandes.	pag. 75
L. CESARI	: "Existence theorems for Lagrange and Pontryagin problems of the calculus of variations and optimal control more dimensional extensions in Sobolev space".	pag. 85
H. HALKIN	: Optimal control as programmin in infinite dimensional spaces	pag. 177
C. OLECH	: "The range of integrals of a certain class of vector-valued functions"	pag. 195
E. H. ROTHE	: Weak topology and calculus of variations	pag. 205
E. O. ROXIN	: Problems about the set of attainability	" 239
