Contents

Hedging of Defaultable Claims

<i>Tomasz R. Bielecki, Monique Jeanblanc, Marek Rutkowski</i>	1
Part I. Replication of Defaultable Claims	3
1 Preliminaries	4
2 Defaultable Claims	8
3 Properties of Trading Strategies	13
4 Replication of Defaultable Claims	27
5 Vulnerable Claims and Credit Derivatives	37
6 PDE Approach	49
Part II. Mean-Variance Approach	61
7 Mean-Variance Pricing and Hedging	63
8 Strategies Adapted to the Reference Filtration	67
9 Strategies Adapted to the Full Filtration	80
10 Risk-Return Portfolio Selection	92
Part III. Indifference Pricing	98
11 Hedging in Incomplete Markets	99
12 Optimization Problems and BSDEs	109
13 Quadratic Hedging	118
14 Optimization in Incomplete Markets	125
References	128

On the Geometry of Interest Rate Models

<i>Tomas Björk</i>	133
1 Introduction	134
2 A Primer on Linear Realization Theory	137
3 The Consistency Problem	145
4 The General Realization Problem	160
5 Constructing Realizations	175
6 The Filipović and Teichmann Extension	183
7 Stochastic Volatility Models	184
References	214

Heterogeneous Beliefs, Speculation and Trading in Financial Markets

<i>José Scheinkman, Wei Xiong</i>	217
1 Introduction	217
2 A Static Model with Heterogeneous Beliefs and Short-Sales Constraints ..	222
3 A Dynamic Model in Discrete Time with Short-Sales Constraints	223
4 No-Trade Theorem under Rational Expectations	226
5 Overconfidence as Source of Heterogeneous Beliefs	228
6 Trading and Equilibrium Price in Continuous Time	232
7 Other Related Models	239
8 Survival of Traders with Incorrect Beliefs	242
9 Some Remaining Problems	246
References	247
