

A Multigrid Tutorial

Second Edition

William L. Briggs

Department of Mathematics
University of Colorado at Denver
Denver, Colorado

Van Emden Henson

Center for Applied Scientific Computing
Lawrence Livermore National Laboratory
Livermore, California

Steve F. McCormick

Department of Applied Mathematics
University of Colorado at Boulder
Boulder, Colorado

siam.

Society for Industrial and Applied Mathematics

Contents

Preface to the Second Edition	ix
Preface to the First Edition	xi
1 Model Problems	1
Exercises	4
2 Basic Iterative Methods	7
Exercises	27
3 Elements of Multigrid	31
Exercises	43
4 Implementation	45
Exercises	68
5 Some Theory	73
Exercises	91
6 Nonlinear Problems	95
Exercises	109
7 Selected Applications	113
Exercises	133
8 Algebraic Multigrid (AMG)	137
Exercises	159
9 Multilevel Adaptive Methods	163
Exercises	174
10 Finite Elements	177
Exercises	186
Bibliography	189
Index	191
