
ABSTRACT AND CONCRETE CATEGORIES

The Joy of Cats

JIRÍ ADÁMEK

Technical University of Prague
Prague, Czechoslovakia

HORST HERRLICH

University of Bremen
Bremen, Federal Republic of Germany

GEORGE E. STRECKER

Kansas State University
Manhattan, Kansas

A WILEY-INTERSCIENCE PUBLICATION

John Wiley & Sons, Inc.

NEW YORK / CHICHESTER / BRISBANE / TORONTO / SINGAPORE

CONTENTS

Preface	vii
0. Introduction	1
1. Motivation,	3
2. Foundations,	5
I. Categories, Functors, and Natural Transformations	11
3. Categories and functors,	13
4. Subcategories,	39
5. Concrete categories and concrete functors,	52
6. Natural transformations,	74
II. Objects and Morphisms	89
7. Objects and morphisms in abstract categories,	91
8. Objects and morphisms in concrete categories,	120
9. Injective objects and essential embeddings,	138
III. Sources and Sinks	153
10. Sources and sinks,	155
11. Limits and colimits,	177
12. Completeness and cocompleteness,	195
13. Functors and limits,	206
IV. Factorization Structures	219
14. Factorization structures for morphisms,	221

15. Factorization structures for sources,	239
16. E-reflective subcategories,	255
17. Factorization structures for functors,	269
V. Adjoints and Monads	281
18. Adjoint functors,	283
19. Adjoint situations,	292
20. Monads,	301
VI. Topological and Algebraic Categories	331
21. Topological categories,	333
22. Topological structure theorems,	355
23. Algebraic categories,	362
24. Algebraic structure theorems,	379
25. Topologically algebraic categories,	388
26. Topologically algebraic structure theorems,	399
VII. Cartesian Closedness and Partial Morphisms	405
27. Cartesian closed categories,	407
28. Partial morphisms, quasitopoi, and topological universes,	420
Bibliography	437
Tables	441
Functors and morphisms: Preservation properties,	441
Functors and morphisms: Reflection properties,	441
Functors and limits,	442
Functors and colimits,	442
Stability properties of special epimorphisms,	442
Table of Categories	443
Table of Symbols	447
Index	451
