CONTENTS

DENISOVA, I. V. A priori estimates of the solution of a linear time-dependent problem connected with the motion of a drop in a fluid medium	1
IVANOV, A. V. On the regularity of generalized solutions of quasilinear degenerate parabolic systems of second order	25
IVANOV, A. V. and MKRTYCHYAN, P. Z. A weighted estimate of the gradient for generalized solutions of quasilinear degenerate parabolic equations	65
KARAZEEVA, N. A., KOT-SIOLIS [COTSIOLIS], A. A., and OSKOLKOV, A. P. On dynamical systems generated by initial-boundary value problems for the equations of motion of linear viscoelastic fluids	73
KARPESHINA, YU. E. Perturbation theory for the Schrödinger operator with a periodic potential	109
SEREGIN, G. A. On differential properties of extremals of variational problems of the mechanics of viscoplastic media	147
SOBOLEV, A. V. and YAFAEV, D. R. Spectral properties of the abstract scattering matrix	159
SOLONNIKOV, V. A. On an initial-boundary value problem for the Stokes systems arising in the study of a problem with a free boundary	191
