

Set-valued Analysis and Differential Inclusions

*A Collection of Papers
resulting from a Workshop held in
Pamporovo, Bulgaria,*

Alexander B. Kurzhanski

Vladimir M. Veliov

Editors

International Institute for
Applied Systems Analysis
Laxenburg, Austria

Birkhäuser

Contents

<i>Preface</i>	vii
<i>Contributors</i>	ix
Principle of Maximum for Differential Inclusions with Phase Constraints <i>A.V. Arutyunov and V.I. Blagodatskikh</i>	1
Feedback Control for Nonlinear Uncertain Systems <i>G. Bartolini and T. Zolezzi</i>	23
On Generalized Hamilton-Jacobi Equations <i>A.V. Bogatyrev</i>	27
Some Qualitative and Quantitative Results on a Differential Inclusion <i>A. Cellina and R.M. Colombo</i>	43
Directionally Continuous Selections and Lower Semicontinuous Differential Inclusions <i>Giovanni Colombo</i>	61
On Robinson's Implicit Function Theorems <i>Asen L. Dontchev and William W. Hager</i>	75
On the Modified Maximum Principle in Estimation Problems for Uncertain Systems <i>T.F. Filippova</i>	93
Set-Valued Approach to Hamilton-Jacobi-Bellman Equations <i>H. Frankowska, S. Plaskacz and T. Rzeżuchowski</i>	105
Projection of Differential Equations <i>Vlastimil Krivan</i>	119
Modified Euler Methods for Differential Inclusions <i>Frank Lempio</i>	131

Local Approximation of First Order to Set-Valued Mappings <i>M.S. Nikol'skii</i>	149
Necessary Conditions for Optimization Problems with Differential Inclusion <i>E.S. Polovinkin</i>	157
An Algorithm for Invariance Kernels of Differential Inclusions <i>Marc Quincampoix</i>	171
Funnel Equations and Regulation of Uncertain Systems <i>V.M. Veliov</i>	183
