NEW YORK

THE CELESTIAL HANDBOOK

TABLE OF CONTENTS

INTRODUCTORY SECTION

<u>CHAPTER 1 - INTRODUCTION</u>	5
Amateur Astronomy - A Personal View	
The Idea Behind the Celestial Handbook	
<u>CHAPTER 2 - INTRODUCING THE UNIVERSE</u>	13
A Celestial Survey	
The Distance Scale of the Universe	
<u>CHAPTER 3 - FUNDAMENTAL KNOWLEDGE FOR THE</u>	
<u>OBSERVER</u>	45
Gaining a "Working Knowledge" of the	
Heavens.	45
The Constellations; Apparent Motions and	
Seasonal Changes.	46
The Celestial Sphere. Celestial Coordinates.	50
Precession.	54
Directions in the Sky.	57
Sidereal Time.	58
Angular Measurement.	60
The Magnitude System; Apparent and	
Absolute Magnitudes.	61
Color Indices.	69
Star Names and Designations.	70
Star Atlases.	74
Stellar Spectral Classes.	76
Star Motions; Proper Motion, Radial	82
Velocity. Stellar temperatures.	82
The H-R Diagram.	83
Star Distances. Distance Units.	87
Double Stars, Variable Stars.	86 88
Classification of Nebulae and Galaxies.	91
<u>CHAPTER 4 - HOW TO USE THIS BOOK</u>	98
The Arrangement of the Celestial Handbook	
Terms, Symbols, and Abbreviations Used.	
<u>THE CELESTIAL HANDBOOK</u>	103
<u>CONSTELLATION INDEX, VOLUME I</u>	652
