

A HISTORY OF VECTOR ANALYSIS

The Evolution of the Idea of a Vectorial System

MICHAEL J. CROWE

Dover Publications, Inc.
New York

Contents

Chapter One THE EARLIEST TRADITIONS

I. Introduction	1
II. The Concept of the Parallelogram of Velocities and Forces	2
III. Leibniz' Concept of a Geometry of Situation	3
IV. The Concept of the Geometrical Representation of Complex Numbers	5
V. Summary and Conclusion	11
Notes	13

Chapter Two SIR WILLIAM ROWAN HAMILTON AND QUATERNIONS

I. Introduction: Hamiltonian Historiography	17
II. Hamilton's Life and Fame	19
III. Hamilton and Complex Numbers	23
IV. Hamilton's Discovery of Quaternions	27
V. Quaternions until Hamilton's Death (1865)	33
VI. Summary and Conclusion	41
Notes	43

Chapter Three OTHER EARLY VECTORIAL SYSTEMS, ESPECIALLY GRASSMANN'S THEORY OF EXTENSION

I. Introduction	47
II. August Ferdinand Möbius and His Barycentric Calculus	48
III. Giusto Bellavitis and His Calculus of Equipollences	52
IV. Hermann Grassmann and His Calculus of Extension: Introduction	54
V. Grassmann's <i>Theorie der Ebbe und Flut</i>	60
VI. Grassmann's <i>Ausdehnungslehre</i> of 1844	63

VII. The Period from 1844 to 1862	77
VIII. Grassmann's <i>Ausdehnungslehre</i> of 1862 and the Gradual, Limited Acceptance of His Work	89
IX. Matthew O'Brien	96
Notes	102
 <i>Chapter Four</i> TRADITIONS IN VECTORIAL ANALYSIS FROM THE MIDDLE PERIOD OF ITS HISTORY	
I. Introduction	109
II. Interest in Vectorial Analysis in Various Countries from 1841 to 1900	110
III. Peter Guthrie Tait: Advocate and Developer of Quaternions	117
IV. Benjamin Peirce: Advocate of Quaternions in America	125
V. James Clerk Maxwell: Critic of Quaternions	127
VI. William Kingdon Clifford: Transition Figure	139
Notes	144
 <i>Chapter Five</i> GIBBS AND HEAVISIDE AND THE DEVELOPMENT OF THE MODERN SYSTEM OF VECTOR ANALYSIS	
I. Introduction	150
II. Josiah Willard Gibbs	150
III. Gibbs' Early Work in Vector Analysis	152
IV. Gibbs' <i>Elements of Vector Analysis</i>	155
V. Gibbs' Other Work Pertaining to Vector Analysis	158
VI. Oliver Heaviside	162
VII. Heaviside's Electrical Papers	163
VIII. Heaviside's <i>Electromagnetic Theory</i>	169
IX. The Reception Given to Heaviside's Writings	174
X. Conclusion	177
Notes	178
 <i>Chapter Six</i> A STRUGGLE FOR EXISTENCE IN THE 1890'S	
I. Introduction	182
II. The "Struggle for Existence"	183
III. Conclusions	215
Notes	221

<i>Chapter Seven</i>	THE EMERGENCE OF THE MODERN SYSTEM OF VECTOR ANALYSIS: 1894-1910	
I.	Introduction	225
II.	Twelve Major Publications in Vector Analysis from 1894 to 1910	226
III.	Summary and Conclusion	239
	Notes	243
<i>Chapter Eight</i>	SUMMARY AND CONCLUSIONS	247
	Notes	255
<i>Index</i>		260
