Ottimizzazione non lineare e applicazioni

a cura di
S. Incerti, G. Treccani

Atti del Convegno Internazionale
ITALSEL - UNIONE MATEMATICA ITALIANA
L'Aquila, 18-20 giugno 1979

Pitagora Editrice • Bologna 1980

INDICE

Prefazione	pag. vii
Discorso di apertura al Convegno	" ix
Nota dei curatori	" xi

CONFERENZE

P.T. Boggs, J.W. Tolle

<i>Singular Perturbations Techniques for Nonlinear Optimization Problems</i>	" 1
--	-----

L.C.W. Dixon

<i>Recursive Quadratic Programming and Variable Metric Methods for Constrained Optimization</i>	" 33
---	------

D.M. Gay

<i>On Solving Robust and Generalized Linear Regression Problems</i>	" 55
---	------

J.J. Moré

<i>On the Design of Optimization Software</i>	" 85
---	------

G. Pesce

<i>Applicazioni di un metodo di ottimizzazioni ad un problema di econometria</i>	" 103
--	-------

K. Ritter

<i>Global and Superlinear Convergence of a Class of Scaled Variable Metric Methods</i>	" 125
--	-------

R. Tapia

<i>Augmented Lagrangian Methods for Constrained Optimization: The Role of the Penalty Constant</i>	" 161
--	-------

G. Treccani

<i>Some Methods for Solving Nondifferentiable Optimisation Problems</i>	pag. 187
---	----------

VI

F. Aluffi, S. Incerti, F. Zirilli

Systems of Simultaneous Equations and Second Order

Differential Equations pag. 185

COMUNICAZIONI

F. Aluffi, S. Incerti, F. Zirilli

*An Application of the Diffusion Approximation to Queue-
ing Networks: A Moving Head Disks Model* " 213

G. Pesamosca

Flusso di costo minimo in un grafo orientato " 223

G. Barberis, L. Lambarelli

Optimal Location of Network Access Facilities " 235

M. Gaviano

*Some General Results on the Stepwise Choice in First-
-Order Minimisation Algorithms* " 247

A. Gabos, R. Clerici

Successes and Failures Using the Rosenbrock Method " 262

A. Gabos, M. Laccone

A nonlinear System Solution for Hydraulic Networks " 268

S. Benedetto, E. Biglieri, C. Naldi, F. Filicori, V. Monaco

Computer Analysis of Strongly Nonlinear Circuits " 273

G. Patrizi

*A Nonlinear Optimization Algorithm for Constrained
Problems with Fast Termination Properties* " 297

G. Patrizi

*Applications of Optimization (NLP) to Management
Problems: Optimization and Implementation - Theory and
Experience* " 297

J. Morgan

An Exterior Approximation Method for Constrained Saddle

VII

<i>Point Problems Via Unconstrained Optimization</i>	pag. 302
L. Grandinetti	
<i>On the Performance of the BFGS Variable Metric Algorithm Versus Its LDL^T Choleski Decomposition</i>	" 313
C. Corradi	
<i>A Note on the Computation of Maximum Likelihood Estimates in Linear Regression Models with Autocorrelated Errors</i>	" 328
F. Marcelja	
<i>Optimization of Optical Interference Coatings</i>	" 343
V. Cantoni, A. Finzi	
<i>Two Re-entry Problems with Equivalent Singular Solution</i>	" 351
V. Parisi, E. Paschini	
<i>A Contribution to the Study of the Circulation of Mediterranean Areas with a Geostrophical Linearised Numerical Method</i>	" 359
S. Pelosi, V. Raganelli	
<i>Una applicazione del metodo di ottimizzazione di Powell ad un problema di econometria</i>	" 363
