(Editors)

Combinatorial designs and their applications

CHAPMAN & HALL/CRC

Boca Raton London New York Washington, D.C.

Contents

- vii Preface
- 1 Balancing carry-over effects in tournaments
IAN ANDERSON
- 17 Resolved designs viewed as sets of partitions
R A BAILEY
- 49 Combinatorics and threshold cryptography
SIMON R BLACKBURN
- 71 Block-transitive, point-intransitive block designs
ALAN R CAMINA
- 83 Some recent developments in difference sets
JAMES A DAVIS and JONATHAN JEDWAB
- 103 Configurations in Steiner triple systems
M J GRANNELL and T S GRIGGS
- 127 A survey of recent results on optimal linear codes
RAY HILL and EMIL KOLEV
