List of Symbols *xi*

Introduction *xiii*

|                                                           |          |    |   |           |     |
|-----------------------------------------------------------|----------|----|---|-----------|-----|
| 1. Subgroups                                              | PROBLEMS | 3  | * | SOLUTIONS | 75  |
| 2. Permutation Groups                                     | PROBLEMS | 11 | * | SOLUTIONS | 83  |
| 3. Automorphisms and Finitely<br>Generated Abelian Groups | PROBLEMS | 19 | * | SOLUTIONS | 94  |
| 4. Normal Series                                          | PROBLEMS | 25 | * | SOLUTIONS | 103 |
| 5. Commutators and<br>Derived Series                      | PROBLEMS | 30 | * | SOLUTIONS | 109 |

|     |                                             |          |     |   |           |     |
|-----|---------------------------------------------|----------|-----|---|-----------|-----|
| 6.  | Solvable and Nilpotent Groups               | PROBLEMS | 35  | * | SOLUTIONS | 115 |
| 7.  | The Group Ring and Monomial Representations | PROBLEMS | 42  | * | SOLUTIONS | 125 |
| 8.  | Frattni Subgroup                            | PROBLEMS | 48  | * | SOLUTIONS | 134 |
| 9.  | Factorization                               | PROBLEMS | 53  | * | SOLUTIONS | 141 |
| 10. | Linear Groups                               | PROBLEMS | 57  | * | SOLUTIONS | 147 |
| 11. | Representations and Characters              | PROBLEMS | 64  | * | SOLUTIONS | 156 |
|     | References                                  |          | 169 |   |           |     |
|     | Index of Terms                              |          | 175 |   |           |     |
