

LECTURES ON THE CALCULUS OF VARIATIONS

BY

OSKAR BOLZA

*Professor of Mathematics
University of Freiburg im Breisgau*

THIRD EDITION

AMS CHELSEA PUBLISHING

American Mathematical Society • Providence, Rhode Island

TABLE OF CONTENTS

CHAPTER I

THE FIRST VARIATION OF THE INTEGRAL $\int_{x_0}^{x_1} F(x, y, y') dx$		PAGE
§ 1.	Introduction - - - - -	1
§ 2.	Agreements concerning Notation and Terminology - - - - -	5
§ 3.	General Formulation of the Problem - - - - -	9
§ 4.	Vanishing of the First Variation - - - - -	13
§ 5.	The Fundamental Lemma and Euler's Differential Equation - - - - -	20
§ 6.	Du Bois-Reymond's and Hilbert's Proofs of Euler's Differential Equation - - - - -	22
§ 7.	Miscellaneous Remarks concerning the Integration of Euler's Differential Equation - - - - -	26
§ 8.	Weierstrass's Lemma and the E-function - - - - -	33
§ 9.	Discontinuous Solutions - - - - -	36
§ 10.	Boundary Conditions - - - - -	41

CHAPTER II

THE SECOND VARIATION OF THE INTEGRAL $\int_{x_0}^{x_1} F(x, y, y') dx$		
§ 11.	Legendre's Condition - - - - -	44
§ 12.	Jacobi's Transformation of the Second Variation - - - - -	51
§ 13.	Jacobi's Theorem - - - - -	54
§ 14.	Jacobi's Criterion - - - - -	57
§ 15.	Geometrical Interpretation of the Conjugate Points - - - - -	60
§ 16.	Necessity of Jacobi's Condition - - - - -	65

CHAPTER III

SUFFICIENT CONDITIONS FOR AN EXTREMUM OF THE INTEGRAL

$\int_{x_0}^{x_1} F(x, y, y') dx$		
§ 17.	Sufficient Conditions for a Weak Minimum - - - - -	68
§ 18.	Insufficiency of the Preceding Three Conditions for a Strong Minimum, and Fourth Necessary Condition - - - - -	73

§ 19. Existence of a Field of Extremals	- - - -	78
§ 20. Weierstrass's Theorem	- - - -	84
§ 21. Hilbert's Proof of Weierstrass's Theorem	- - - -	91
§ 22. Sufficient Conditions for a Strong Minimum	- - - -	94
§ 23. The Case of Variable End-Points	- - - -	102

CHAPTER IV

WEIERSTRASS'S THEORY OF THE PROBLEM IN PARAMETER-REPRESENTATION

§ 24. Formulation of the Problem	- - - -	115
§ 25. The First Variation	- - - -	122
§ 26. Examples	- - - -	126
§ 27. The Second Variation	- - - -	130
§ 28. The Fourth Necessary Condition and Sufficient Conditions	- - - -	138
§ 29. Boundary Conditions	- - - -	148
§ 30. The Case of Variable End-Points	- - - -	153
§ 31. Weierstrass's Extension of the Meaning of the Definite Integral $\int_{t_0}^{t_1} F(x, y, x', y') dt$	- - - -	156

CHAPTER V

KNESER'S THEORY

§ 32. Gauss's Theorems on Geodesics	- - - -	164
§ 33. Kneser's Theorem on Transversals and the Theorem on the Envelope of a Set of Extremals	- - - -	166
§ 34. Construction of a Field	- - - -	175
§ 35. Kneser's Curvilinear Co-ordinates	- - - -	181
§ 36. Sufficient Conditions for a Minimum in the Case of One Movable End-Point	- - - -	187
§ 37. Various Proofs of Weierstrass's Theorem—The Assumption $F(t, \alpha) + 0$	- - - -	193
§ 38. The Focal Point	- - - -	199

CHAPTER VI

WEIERSTRASS'S THEORY OF THE ISOPERIMETRIC PROBLEMS

§ 39. Euler's Rule	- - - -	206
§ 40. The Second Necessary Condition	- - - -	213

TABLE OF CONTENTS

ix

§41. The Third Necessary Condition and the Conjugate Point - - - - -	218
§42. Sufficient Conditions - - - - -	232

CHAPTER VII

HILBERT'S EXISTENCE THEOREM

§43. Introductory Remarks - - - - -	245
§44. Theorems concerning the Generalized Integral J_1^* -	247
§45. Hilbert's Construction - - - - -	253
§46. Properties of Hilbert's Curve - - - - -	259

INDEX - - - - -	267
-----------------	-----
