

Hartmut Führ

Abstract Harmonic Analysis of Continuous Wavelet Transforms

 Springer

Contents

1	Introduction	1
1.1	The Point of Departure	1
1.2	Overview of the Book	4
1.3	Preliminaries	5
2	Wavelet Transforms and Group Representations	15
2.1	Haar Measure and the Regular Representation	15
2.2	Coherent States and Resolutions of the Identity	18
2.3	Continuous Wavelet Transforms and the Regular Representation	21
2.4	Discrete Series Representations	26
2.5	Selfadjoint Convolution Idempotents and Support Properties	39
2.6	Discretized Transforms and Sampling	45
2.7	The Toy Example	51
3	The Plancherel Transform for Locally Compact Groups	59
3.1	A Direct Integral View of the Toy Example	59
3.2	Regularity Properties of Borel Spaces*	66
3.3	Direct Integrals	67
3.3.1	Direct Integrals of Hilbert Spaces	67
3.3.2	Direct Integrals of von Neumann Algebras	69
3.4	Direct Integral Decomposition	71
3.4.1	The Dual and Quasi-Dual of a Locally Compact Group*	71
3.4.2	Central Decompositions*	74
3.4.3	Type I Representations and Their Decompositions	75
3.4.4	Measure Decompositions and Direct Integrals	79
3.5	The Plancherel Transform for Unimodular Groups	80
3.6	The Mackey Machine*	85
3.7	Operator-Valued Integral Kernels*	93
3.8	The Plancherel Formula for Nonunimodular Groups	97
3.8.1	The Plancherel Theorem	97
3.8.2	Construction Details*	99

4	Plancherel Inversion and Wavelet Transforms	105
4.1	Fourier Inversion and the Fourier Algebra*	105
4.2	Plancherel Inversion*	113
4.3	Admissibility Criteria	119
4.4	Admissibility Criteria and the Type I Condition**	129
4.5	Wigner Functions Associated to Nilpotent Lie Groups**	130
5	Admissible Vectors for Group Extensions	139
5.1	Quasiregular Representations and the Dual Orbit Space	141
5.2	Concrete Admissibility Conditions	145
5.3	Concrete and Abstract Admissibility Conditions	155
5.4	Wavelets on Homogeneous Groups**	160
5.5	Zak Transform Conditions for Weyl-Heisenberg Frames	162
6	Sampling Theorems for the Heisenberg Group	169
6.1	The Heisenberg Group and Its Lattices	171
6.2	Main Results	172
6.3	Reduction to Weyl-Heisenberg Systems*	174
6.4	Weyl-Heisenberg Frames*	176
6.5	Proofs of the Main Results*	178
6.6	A Concrete Example	182
