

# COMBINATORICS '88

PROCEEDINGS OF THE INTERNATIONAL CONFERENCE ON  
INCIDENCE GEOMETRIES AND COMBINATORIAL STRUCTURES

2<sup>nd</sup> volume

Ravello, Italy, 23–28 may, 1988

Edited by:

## TABLE OF CONTENTS

|  |     |
|--|-----|
| Preface and Acknowledgements . . . . .   | vii |
| CONTRIBUTED PAPERS   |     |
| <b>L. Borzacchini</b>  |     |
| Conversion matrices and graph polynomials . . . . .  | 1   |
| <b>T. Brylawski</b>  |     |
| Matroid blocking sets . . . . .  | 11  |
| <b>N. Endres</b>   |     |
| Semidirect products of symmetric groupoids . . . . .   | 39  |
| <b>H. Hotje</b>  |     |
| Finite kinematic groups . . . . .  | 69  |
| <b>S. Innamorati and A. Maturo</b>   |     |
| On blocking sets of smallest cardinality in the projective<br>plane of order seven . . . . . | 79  |
| <b>N.L. Johnson</b>  |     |
| Derivation . . . . .   | 97  |
| <b>M. Kaplan</b>   |     |
| A class of cosets of second order Reed-Muller codes . . . . .                                | 115 |
| <b>H. Karzel and B. Reinmiedl</b>  |     |
| Pseudo subaffine double spaces . . . . .   | 129 |

**R. Kaya and Ş. Olgun**  
 Construction of some hyperbolic planes from finite projective  
 planes using Baer subplanes . . . . . 141

**M. Konstantinidou**  
 Sur une relation d'équivalence dans des hyperstructures  
 ordonnées . . . . . 149

**A. Kreuzer**  
 Modules over Hjelmslev rings . . . . . 155

**H.J. Kroll**  
 Finite halfordered circle structures . . . . . 165

**J. Lauri and M.C. Marino**  
 On pseudosimilarity in graphs . . . . . 169

**A.S. Llado, J. Villar and M.A. Fiol**  
 A new family of digraphs on alphabets . . . . . 181

**P.M. Lo Re and D. Olanda**  
 $\{0, 2, 4\}$ -Semiaffine planes . . . . . 195

**M. Marchi**  
 Axiomatic characterization of weak affine spaces . . . . . 211

**N. Melone**  
 A structure theorem for finite linear spaces . . . . . 231

**K. Metsch**  
 Extending the complement of the union of disjoint Baer  
 subplanes to a projective plane . . . . . 243

**S. Milici**  
 On the existence of  $S_3(2,3,v)$ 's without two-times repeated blocks . . 253

TABLE OF CONTENTS

**W. Neidhart**  
 Special point sets in Steiner quadruple systems . . . . . 273

**R. Peele**  
 Divisibility patterns for some combinatorial sequences . . . . . 287

**C. Perelli Cippo**  
 Semicollineations of affine geometries over an  $A$ -module . . . . . 295

**S. Pianta and E. Zizioli**  
 Split extensions of kinematic spaces and their automorphisms . . . . . 305

**G. Pica**  
 Geometrie di tipo  $C_4$  e  $C_5$  con rette fitte . . . . . 317

**G. Pirillo**  
 On some properties of the Thue infinite word . . . . . 325

**G. Quattrocchi**  
 Threefold triple systems with blocks at most two-times repeated . . . 331

**P. Quattrocchi and G. Rinaldi**  
 Finite tangent-circle structures . . . . . 349

**R. Rees**  
 Semiframes and nearframes . . . . . 359

**M.J. de Resmini**  
 On the semifield plane of order 16 with kern  $GF(4)$  . . . . . 369

**D. Saeli**  
 Sugli insiemi di permutazioni involutorie con identità strettamente  
 transitivi e i loro gruppi di automorfismi . . . . . 391

**O. Serra and M.A. Fiol**  
 On some groups related to arc-colored digraphs . . . . . 413

TABLE OF CONTENTS

**O. Serra, M. Mora and M.A. Fiol**  
 On  $c$ -circulant digraphs . . . . . 421

**R. Stangarone and A. Terrusi**  
 Alcuni risultati sui  $q$ -archi completi di un piano proiettivo  $\pi_q$ ,  
 $q$  pari,  $q \geq 16$  . . . . . 439

**T. Szőnyi**  
 $k$ -sets in  $PG(2,q)$  having a large set of internal nuclei . . . . . 449

**J.L. Villar**  
 Kautz  $s$ -ary closed sequences . . . . . 459

**T. Vougiouklis**  
 The very thin hypergroups and the  $S$ -construction . . . . . 471

**F. Wettle**  
 Remarks on closed arcs . . . . . 479

**B.J. Wilson**  
 $(k,n)$ -caps of a finite projective space . . . . . 483

**N. Zagaglia Salvi**  
 A problem about the point-distinguishing chromatic index  
 of a cycle . . . . . 497

LIST OF PARTICIPANTS . . . . . 505
