

Introduction to the theory of thermal neutron scattering

G. L. Squires
9781107644069

Contents

- Preface
- 1
Introduction
- 2
Nuclear scattering – basic theory
- 3
Nuclear scattering by crystals
- 4
Correlation functions in nuclear scattering
- 5
Scattering by liquids
- 6
Neutron optics
- 7
Magnetic scattering – basic theory
- 8
Scattering from magnetically ordered crystals
- 9
Polarisation analysis
- Appendices
- Solutions to examples
- Bibliography
- References
- Glossary of symbols
- [Index](#)
