

Optimization for data analysis

Stephen J. Wright, Benjamin Recht

9781316518984 - ©2022

Book contents

Frontmatter

Contents

Preface

1 Introduction

2 Foundations of Smooth Optimization

3 Descent Methods

4 Gradient Methods Using Momentum

5 Stochastic Gradient

6 Coordinate Descent

7 First-Order Methods for Constrained Optimization

8 Nonsmooth Functions and Subgradients

9 Nonsmooth Optimization Methods

10 Duality and Algorithms

11 Differentiation and Adjoint

Appendix

Bibliography
