

Poincaré duality algebras, Macaulay's dual systems, and Steenrod operations / Dagmar M. Meyer and Larry Smith

Introduction;

Part I.

Poincare;

Duality Quotients:

Part II.

Macaulay's Dual Systems and Frobenius Powers

Part III.

Poincare;

Duality and the Steenrod Algebra

Part IV.

Dickson, Symmetric, and Other Coinvariants

Part V.

The Hit Problem mod 2

Part VI.

Macaulay's Inverse Systems and Applications
