Library of Congress Cataloging-in-Publication Data

Gray, Robert M., 1943–

Probability, random processes, and ergodic
properties.

Bibliography: p.

Includes index.

1. Probabilities. 2. Measure theory. 3. Stochastic
processes. I. Title.

CONTENTS

<i>PREFACE</i>	xi
History and Goals	
Assumed background	
Acknowledgements	
1. PROBABILITY AND RANDOM PROCESSES	1
1.1 Introduction	1
1.2 Probability Spaces and Random Variables	2
1.3 Random Processes and Dynamical Systems	8
1.4 Distributions	12
1.5 Extension	19
1.6 Isomorphism	27
<i>References</i>	30
2. STANDARD ALPHABETS	32
2.1 Extension of Probability Measures	33
2.2 Standard Spaces	34
2.3 Some Properties of Standard Spaces	41
2.4 Simple Standard Spaces	45
2.5 Metric Spaces	47
2.6 Extension in Standard Spaces	55
2.7 The Kolmogorov Extension Theorem	56
2.8 Extension Without a Basis	58
<i>References</i>	65
3. BOREL SPACES AND POLISH ALPHABETS	66
3.1 Borel Spaces	66
3.2 Polish Spaces	71
3.3 Polish Schemes	81
<i>References</i>	90

4. AVERAGES	92
4.1 Introduction	92
4.2 Discrete Measurements	93
4.3 Quantization	97
4.4 Expectation	101
4.5 Time Averages	115
4.6 Convergence of Random Variables	118
4.7 Stationary Averages	129
<i>References</i>	132
5. CONDITIONAL PROBABILITY AND EXPECTATION	133
5.1 Introduction	133
5.2 Measurements and events	134
5.3 Restrictions of Measures	139
5.4 Elementary Conditional Probability	140
5.5 Projections	144
5.6 The Radon-Nikodym Theorem	147
5.7 Conditional Probability	152
5.8 Regular Conditional Probability	155
5.9 Conditional Expectation	160
5.10 Independence and Markov Chains	168
<i>References</i>	172
6. ERGODIC PROPERTIES	173
6.1 Ergodic Properties of Dynamical Systems	173
6.2 Some Implications of Ergodic Properties	179
6.3 Asymptotically Mean Stationary Processes	185
6.4 Recurrence	194
6.5 Asymptotic Mean Expectations	201
6.6 Limiting Sample Averages	203
6.7 Ergodicity	207
<i>References</i>	215
7. ERGODIC THEOREMS	216
7.1 Introduction	216
7.2 The Pointwise Ergodic Theorem	217
7.3 Block AMS Processes	223
7.4 The Ergodic Decomposition	225
7.5 The Subadditive Ergodic Theorem	232
<i>References</i>	242

8. SPACES OF MEASURES AND THE ERGODIC DECOMPOSITION	244
8.1 Introduction	244
8.2 A Metric Space of Measures	246
8.3 The rho-bar Distance	254
8.4 Measures on Measures	264
8.5 The Ergodic Decomposition Revisited	265
8.6 The Ergodic Decomposition of Markov Sources	269
8.7 Barycenters	272
8.8 Affine Functions of Measures	276
8.9 The Ergodic Decomposition of Affine Functionals	281
<i>Rerences</i>	282
 <i>Bibliography</i>	 284
 <i>Index</i>	 289
