Mass transportation problems / Svetlozar T. Rachev, Ludger Rüschendorf.

p. cm. – (Probability and its applications) Includes bibliographical references and indexes. Contents: vol. 1. Theory – vol. 2. Applications.

ISBN 0-387-98350-3 (vol. 1 : hardcover). - ISBN 0-387-98352-X (vol.

2 : hardcover)

1. Transportation problems (Programming) I. Rüschendorf, Ludger, 1948- . II. Title. III. Series: Springer series in statistics.

Probability and its applications.

Contents to Volume I

| P | reiace | to volume 1 | VII |
|---|--------------|--|-----|
| | Prefa | ce to Volume II | xv |
| 1 | Introduction | | 1 |
| | 1.1 | Mass Transportation Problems in Probability Theory | 1 |
| | 1.2 | Specially Structured Transportation Problems | 21 |
| | 1.3 | Two Examples of the Interplay Between Continuous and Discrete MTPs | 23 |
| | 1.4 | Stochastic Applications | 27 |
| 2 | The | Monge-Kantorovich Problem | 57 |
| | 2.1 | The Multivariate Monge–Kantorovich Problem: An Introduction | 58 |
| | 2.2 | Primal and Dual Monge–Kantorovich Functionals | 64 |
| | 2.3 | Duality Theorems in a Topological Setting | 76 |
| | 2.4 | General Duality Theorem | 82 |
| | 2.5 | Duality Theorems with Metric Cost Functions | 86 |
| | 2.6 | Dual Representation for LMinimal Metrics | 96 |

xx

| 3 | Expl | icit Results for the Monge–Kantorovich Problem | 107 | |
|---|--|---|----------|--|
| | 3.1 | The One-Dimensional Case | 107 | |
| | 3.2 | The Convex Case | 112 | |
| | 3.3 | The General Case | 123 | |
| | 3.4 | An Extension of the Kantorovich L_2 -Minimal Problem | 132 | |
| | 3.5 | Maximum Probability of Sets, Maximum of Sums, and Stochastic Order | 144 | |
| | 3.6 | Hoeffding–Fréchet Bounds | 151 | |
| | 3.7 | Bounds for the Total Transportation Cost | 158 | |
| 4 | Duality Theory for Mass Transfer Problems 16 | | | |
| | 4.1 | Duality in the Compact Case | 161 | |
| | 4.2 | Cost Functions with Triangle Inequality | 172 | |
| | 4.3 | Reduction Theorems | 190 | |
| | 4.4 | Proofs of the Main Duality Theorems and a Discussion | 207 | |
| | 4.5 | Duality Theorems for Noncompact Spaces | 219 | |
| | 4.6 | Infinite Linear Programs | 241 | |
| | 4.6.1 | Duality Theory for an Abstract Scheme of Infinite-Dimensiona Linear Programs and Its Application to the Mass Transfer Problem | l 241 | |
| | 4.6.2 | Duality Theorems for the Mass Transfer Problem with Given Marginals | 245 | |
| | 4.6.3 | Duality Theorem for a Marginal Problem with Additional Constraints of Moment-Type | 251 | |
| | 4.6.4 | Duality theorem for a Further Extremal Marginal Problem | 258 | |
| | 4.6.5 | Duality Theorem for a Nontopological Version of the Mass Transfer Problem | 265 | |
| 5 | Applications of the Duality Theory | | | |
| | 5.1 | Mass Transfer Problem with a Smooth Cost Function— Explicit Solution | 275 | |
| | 5.2 | Extension and Approximate Extension Theorems | 290 | |
| | 5.2.1 | The Simplest Extension Theorem (the Case $X = E(S)$ and $X_1 = E(S_1)$) | 290 | |
| | 5.2.2 | Approximate Extension Theorems | 292 | |
| | | Extension Theorems | 295 | |
| | | A continuous selection theorem | 302 | |
