

Mathematical World • Volume 2

Fixed Points

Yu. A. Shashkin

Translated from the Russian by
Viktor Minachin

American Mathematical Society
Mathematical Association of America

Table of Contents

<i>Preface</i>	vii
<i>Chapter 1</i>	Continuous Mappings of a Closed Interval and a Square	1
<i>Chapter 2</i>	First Combinatorial Lemma	5
<i>Chapter 3</i>	Second Combinatorial Lemma, or Walks through the Rooms in a House	7
<i>Chapter 4</i>	Sperner's Lemma	9
<i>Chapter 5</i>	Continuous Mappings, Homeomorphisms, and the Fixed Point Property	15
<i>Chapter 6</i>	Compactness	21
<i>Chapter 7</i>	Proof of Brouwer's Theorem for a Closed Interval, the Intermediate Value Theorem, and Applications	25
<i>Chapter 8</i>	Proof of Brouwer's Theorem for a Square ...	33
<i>Chapter 9</i>	The Iteration Method	39
<i>Chapter 10</i>	Retraction	43
<i>Chapter 11</i>	Continuous Mappings of a Circle, Homotopy, and Degree of a Mapping	47
<i>Chapter 12</i>	Second Definition of the Degree of a Mapping	53
<i>Chapter 13</i>	Continuous Mappings of a Sphere	55
<i>Chapter 14</i>	Lemma on Equality of Degrees	61
<i>Solutions and Answers</i>	65
<i>References</i>	77
