

# Table of Contents

<b>1. Accessing MATLAB</b> .....	1
<b>2. Entering Matrices</b> .....	1
2.1 Complex Numbers.....	2
2.2 Large Matrices.....	3
2.3 Multidimensional Arrays.....	3
2.4 Using rand, magic, and hilb .....	3
2.5 Referencing Individual Entries.....	4
2.6 Other Data Types (Classes).....	4
<b>3. Matrix Operations</b> .....	5
3.1 Matrix Division .....	5
3.2 Entry-wise Operations .....	6
<b>4. Statements, Expressions, Variables</b> .....	6
4.1 Suppressing Display of Results.....	7
4.2 Case-Sensitivity .....	7
4.3 Listing and Clearing Variables and M-files.....	7
4.4 Runaway Process, Machine Epsilon.....	8
4.5 Saving a Session .....	8
4.6 Hardcopy .....	8
<b>5. Matrix Building Functions</b> .....	9

<b>6. Control Flow Statements</b> .....	<b>10</b>	<b>11. Strings, Error Messages, Input</b> .....	<b>26</b>
6.1 Variable Controlled Loops (for) .....	10	11.1 Error Messages .....	27
6.2 Relation Controlled Loops (while).....	11	11.2 Input .....	27
6.3 Branching (if).....	12	<b>12. Managing M-files</b> .....	<b>27</b>
6.4 Relations.....	12	12.1 Executing System Commands (!-Feature) .....	28
<b>7. MATLAB Functions</b> .....	<b>14</b>	12.2 Working with Directories and Files .....	28
7.1 Scalar Functions .....	14	12.3 MATLAB and path .....	29
7.2 Vector Functions.....	14	12.4 Debugging .....	29
7.3 Matrix Functions.....	15	<b>13. Comparing Efficiency of Code</b> .....	<b>30</b>
<b>8. Command Line Editing And Recall</b> .....	<b>16</b>	13.1 Flops .....	30
<b>9. Submatrices and Colon Notation</b> .....	<b>17</b>	13.2 Elapsed Time (Tic, Toc) .....	30
9.1 Generating Vectors .....	17	13.3 Profile .....	31
9.2 Accessing Submatrices .....	18	<b>14. Output Forms</b> .....	<b>31</b>
<b>10. M-files</b> .....	<b>19</b>	<b>15. Graphics</b> .....	<b>32</b>
10.1 Script Files.....	19	15.1 Planar Plots (plot) .....	32
10.2 Function Files .....	20	15.2 Multiple Figures .....	33
10.3 Multiple Output Variables .....	22	15.3 Graph of a Function (fplot) .....	34
10.4 Comments, Documentation for Help .....	23	15.4 Parametrically Defined Curves .....	34
10.5 Producing Efficient Code .....	23	15.5 Titles, Labels, Text in a Graph .....	34
10.6 Advanced Features .....	24	15.6 Control of Axes and Scaling (axis) .....	35
10.7 Calling Priorities, Subfunctions, Private Functions .....	26	15.7 Multiple Plots .....	36
		15.8 Line Types, Marker Types, Colors .....	36

15.9 Subplot, Specialized Plots .....	37	18.4 Graphs of Functions (ezplot, funtool) ....	57
15.10 Graphics Hardcopy (print) .....	37	18.5 Symbolic Matrix Operations .....	58
15.11 Three-Dimensional Curve Plots (plot3).....	39	18.6 Symbolic Linear Algebraic Functions .....	60
15.12 Mesh and Surface Plots (mesh, surf) .....	39	18.7 Solving Algebraic Equations (solve) .....	63
15.13 Color Shading and Color Profile .....	41	18.8 Solving Differential Equations (dsolve) ....	64
15.14 Perspective of View (view, light, camera, rotate3d) .....	42	18.9 Further Maple Access .....	66
15.15 Parametrically Defined Surfaces .....	42	<b>19. Subject Area Lists of Functions .....</b>	<b>67</b>
<b>16. Advanced Graphics .....</b>	<b>44</b>	19.1 Help Topics - MATLAB Directories .....	70
16.1 Handle Graphics .....	44	19.2 General Purpose Commands .....	72
16.2 Graphical User Interface (GUI) .....	44	19.3 Operators and Special Characters .....	74
<b>17. Sparse Matrix Computations .....</b>	<b>45</b>	19.4 Language Constructs and Debugging .....	77
17.1 Storage Modes (full, sparse) .....	45	19.5 Elementary Matrices and Matrix Manipulation .....	79
17.2 Generating Sparse Matrices .....	46	19.6 Elementary Math Functions .....	82
17.3 Computation with Sparse Matrices .....	47	19.7 Specialized Math Functions .....	84
<b>18. The Symbolic Math Toolbox .....</b>	<b>49</b>	19.8 Matrix Functions - Numerical Linear Algebra .....	86
18.1 Calculus (diff, int, limit, and taylor) .....	49	19.9 Data Analysis and Fourier Transform Functions .....	88
18.2 Variable Precision Arithmetic (vpa) .....	54	19.10 Polynomial and Interpolation Functions .....	91
18.3 Simplification (factor, expand, simplify) .....	55	19.11 Function Functions - Nonlinear Numerical Methods .....	93
		19.12 Sparse Matrix Functions .....	94

19.13	Sound Processing Functions .....	97
19.14	Graph2d - Two Dimensional Plotting .....	97
19.15	Graph3d - Three Dimensional Plotting .....	99
19.16	Specgraph - Specialized Graphs .....	102
19.17	Handle Graphics .....	105
19.18	Uitools - Graphical User Interface Tools .....	108
19.19	Character String Functions .....	111
19.20	Low-Level File I/O Functions .....	113
19.21	Data Types and Structures .....	116
19.22	The Symbolic Math Toolbox .....	118
