Preface	ix
About the authors	xi
Introduction	xii
Part One PROPERTY INVESTMENT DECISIONS	1
1 The rationale of investment and investment decision-making	3
1.1 Introduction	3
1.2 Principles of investment	3
1.3 The investment problem	4
1.4 Towards the management of the investment problem	5
1.5 Types of investment	6
1.6 The investors and market makers	7
1.7 Classification of investment decisions	8
1.8 The investment decision-making process	10
1.9 Summary	12
2 Investment strategy and objectives – the portfolio approach	14
2.1 Introduction	14
2.2 The portfolio problem	15
2.3 The establishment of objectives	16
2.4 Portfolio strategies	23
2.5 Timing of investment activity	25
2.6 Summary	26
3 Decision criteria – return and risk	28
3.1 Introduction	28
3.2 The meaning of return	30
3.3 Measurement of earnings and profitability	31
3.4 Towards the definition of risk	34
3.5 Elements of risk	36
3.6 The quantification and measurement of risk	37
3.7 Summary	43
4 Investment performance	46
4.1 Introduction	46

CONTENTS

v

4.2 The purpose and objectives of performance appraisal	48
4.3 Modes of performance appraisal	49
4.4 The measures and indicators of performance	50
4.5 The stages of portfolio performance appraisal	51
4.6 Approaches to performance appraisal	52
4.7 Problems in performance appraisal	57
4.8 Summary	58
Part Two QUANTITATIVE TECHNIQUES FOR DECISION-MAKING	61
5 Techniques for 'invest or not' decisions	63
5.1 Introduction	63
5.2 What is decision analysis?	63
5.3 Decision tree as a tool for decision-making	64
5.4 The basic and extensive form of a decision tree	74
5.5 Conclusions	79
6 Resource allocation	82
6.1 Linear programming	83
6.2 Simplex technique	86
6.3 The transportation problem	89
7 Resource planning	97
7.1 The assignment problem	97
7.2 Resource planning: scheduling	101
7.3 Resource planning: sequencing	107
8 Networks	114
8.1 Critical path method	114
8.2 PERT	124
9 Resource management	128
9.1 Stock/inventory control	128
9.2 Deterministic stock problems	131
9.3 Queuing	141
10 The analysis of investment risk	155
10.1 Introduction	155
10.2 Fundamental concepts of the definition and measurement of investment risk	156
10.3 Outline of the methods of risk analysis	159
10.4 Market approach to risk analysis	165
10.5 Using the methods to analyse risk	168
10.6 The management of risk	174
10.7 Market-related risk – the analysis of betas	177
10.8 Summary	179

Part Three THE MEASUREMENT AND ASSESSMENT OF INVESTMENT PERFORMANCE	183
11 The rationale of the appraisal of investment performance	185
11.1 Introduction	185
11.2 Purpose and objectives	187
11.3 The evolution of portfolio performance appraisal	188
11.4 Property portfolio performance	192
11.5 Problems and limitations	196
12 The measures and indicators of performance	200
12.1 Introduction	200
12.2 What is to be measured – general requirements	201
12.3 Data and information requirements	203
12.4 Measures of return – computational aspects	204
12.5 The treatment of the risk dimension	211
12.6 Assessment of capital values for performance measurement	214
13 The uses of various indices in performance appraisal	217
13.1 Introduction	217
13.2 Review of indices used in investment practice	219
13.3 Property indices	222
13.4 Data requirements – databanks for property indices	227
13.5 Use of indices in performance measurement	231
14 Performance measurement systems	235
14.1 Introduction	235
14.2 Concept and structure of portfolio appraisal systems	236
14.3 Specifications of sub-systems	239
14.4 Survey of some of leading performance measurement systems	242
Part Four INFORMATION NEEDS – PROVISION, MANAGEMENT	245
15 Information needs and the sources of data	247
15.1 Introduction	247
15.2 Property information needs	247
15.3 Property information sources	254
16 The processing and management of information	263
16.1 Information in decision-making	263
16.2 Information in management	264
16.3 The Information Technology revolution	266
16.4 Definitions of Information Technology	267
16.5 Applications of Information Technology	267

Part Five PROPERTY DECISIONS IN PRACTICE: EXAMPLES	275
17 Property decisions in practice	277
17.1 Introduction	277
17.2 Portfolio performance measurement and management	277
17.3 Property ownership vs leasing	284
17.4 Taxation effects of property decisions	293
17.5 Financial strategies	297
Bibliography	303
Appendices	309
Appendix A: Areas in tail of the normal distribution	311
Appendix B: Extracts from the IPD Annual Review	313
Index	329
