Kevorkian, J
Perturbation methods in applied mathematics.

(Applied mathematical sciences ; v. 34)

A revised and updated version of J. D. Cole's
Perturbation methods in applied mathematics, 1968.

Bibliography: p.

Includes index.

1. Differential equations—Numerical solutions.
 2. Differential equations—Asymptotic theory.
 3. Perturbation (Mathematics) I. Cole, Julian D.,
joint author. II. Title. III. Series.

Contents

Chapter 1	
Introduction	1
1.1 Ordering	1
1.2 Asymptotic Sequences and Expansions	3
1.3 Limit Process Expansions, Matching, General Asymptotic Expansions	7
Chapter 2	
Limit Process Expansions Applied to Ordinary Differential Equations	17
2.1 Linear Oscillator: Regular Perturbation	17
2.2 Linear Oscillator: Singular Problem	20
2.3 Linear Singular Perturbation Problems with Variable Coefficients	28
2.4 Theorem of Erdelyi, Rigorous Results	52
2.5 Model Nonlinear Example for Singular Perturbations	56
2.6 Relaxation Oscillations of the van der Pol Oscillator	67
2.7 Singular Boundary Problems	83
2.8 Higher-Order Example: Beam String	97
Chapter 3	
Multiple-Variable Expansion Procedures	105
3.1 Method of Strained Coordinates (Lindstedt's Method) for Periodic Solutions	106
3.2 Two-Variable Expansion Procedure, Weakly Nonlinear Autonomous Systems of Second Order	115
3.3 Second Order Equations with Variable Coefficients	151
3.4 Applications to Satellite Problems	171
3.5 Higher Order Problems	211

3.6 Strongly Nonlinear Oscillations, The Method of Kuzmak-Luke	264
3.7 Summary of Other Solution Techniques	278
Chapter 4	
Applications to Partial Differential Equations	330
4.1 Limit-Process Expansions for Second-Order Partial Differential Equations	330
4.2 Boundary-Layer Theory in Viscous Incompressible Flow	370
4.3 Singular Boundary-Value Problems	387
4.4 Multiple-Variable Expansions for Second-Order Partial Differential Equations	448
Chapter 5	
Examples from Fluid Mechanics	481
5.1 Weakly Nonlinear One-Dimensional Acoustics	481
5.2 Small Amplitude Waves on Shallow Water	505
5.3 Expansion Procedures of Thin Airfoil Theory at Various Mach Numbers	519
Bibliography	546
Author Index	547
Subject Index	549
